

Plexus Slim

The Mechanics of Weight Loss

The body naturally stores fat. The most common areas are the stomach, thighs and buttocks. These excess fat stores contain toxins that cause havoc with our immune system. Ultimately this can lead to heart disease, diabetes, loss of energy, depression and many other debilitating conditions.

"Obesity in the U.S. is driving rising rates of diabetes and hypertension with stroke-causing conditions affecting almost 3 in 10 Americans. Excess weight increases the risk of developing heart disease, stroke and other serious conditions, according to the U. S. Center for Disease Control and Prevention." Bloomberg News, October 2008

When used as part of a daily hydration regimen (1 stick pack per day), Plexus Slim promotes:

- Loss of weight and inches by burning fat, not muscle
- Healthy blood sugar levels
- Healthy cholesterol and lipid levels
- Healthy willpower over food choices
- Free radical scavenging (reduces oxidative stress)

Plexus Slim is:

- Safe, and non-thermogenic
- Diabetic friendly

Product Active Ingredients

Leveraging the research and experience of one of the world's largest natural ingredient compounder, Plexus Slim harnesses the beneficial essence of 2 plant extract concentrates, provides proven effectiveness in slimming and provides beauty benefits. Compounded using a

proprietary process, Plexus Slim possesses a unique composition. Its effectiveness has been clinically proven.

The principle active ingredient in Plexus Slim is a derivative of chlorogenic acid. Among other mechanisms, this ingredient provides:

Fat metabolism —Chlorogenic acids are one of the major classes of phenolic compounds. They are present in a large variety of fruits and vegetables. They largely occur conjugated with quinic acid as in chlorogenic acid.

Directions:

Half an hour before a meal — it does not matter which meal, it can be breakfast, lunch or dinner — pour the Plexus Slim powder into a 12 ounce glass/bottle of water, stir/shake and drink. That's all there is to it!

Ingredients:

Proprietary blend of Chlorogenic Acid (from Green Coffee *Coffea arabica* Bean) Extract (contains less than 2% natural caffeine), Chromium, *Garcinia cambogia* Fruit Extract, Alpha Lipoic Acid, *Hoodia gordonii* Whole Plant Extract.
